Department reports were heard. Ambulance Administrator Paul Fera Jr. reported calls for the month of Jan. 2013 totaled 117, of which 64 were ALS, 53 being Basic life support.

Highway Supt Jake Emmel informed the Board that he has been in contact with the company that helped install the wind met tower on the Smith property several years ago. That tower can now be taken down as it is no longer needed and Mr. Smith would like the land back that he donated for the use of the tower. Mr. Emmel explained that he spoke with Mike Parks, and the cost to remove the tower is \$2,100.00. The Board will discuss the issue further and take action at a later date.

Also, Mr. Emmel reported that the Town's salt and sand supply is holding up well as we enter the end of the winter season. Also, the new dump truck could be delivered as early as early March. All equipment will be installed on the truck at that time. Also, the annual road sign survey is being done to meet County and State requirements.

Supervisor Manktelow then discussed a quote received from Newark Electric for the replacement of outdoor lighting at the Town Hall. The project would remove 11 incandescent outdoor lights and replace them with high efficiency fixtures and bulbs whereby 25000 watts of outdoor lighting would be replaced with bulbs using about 468 watts resulting in a significant savings on the electric bill. After a discussion, Councilman Paliotti moved to approve of the quote totaling \$3,197.14 to replace the fixtures and bulbs at the Town Hall. Motion seconded by Councilman D'Amato. Vote:
